

FROM THE CREATORS OF *DRAGON'S LAIR*

Thayer's Quest™

Come to a fantastic realm of magic and wonder where a young hero strives against ancient evil. Lead him on a perilous quest to find a talisman of great power and restore the lost majesty of a fallen kingdom.

RDI

Video Systems™

• REVOLUTIONARY GAME DESIGN

The Thayer's Quest game system is unlike any other in arcade history. Using advanced laserdisc technology pioneered in Dragon's Lair, and state-of-the-art features like artificial intelligence and speech synthesis, RDI Video Systems has developed a unique arcade experience.

The system allows players to acquire and use treasures and weapons, calls the player by name, remembers his or her game history even gives helpful hints along the way.

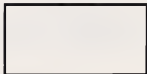

Players refer to Thayer's Quest, not so much as a game, but as an experience. Market tests again and again showed that players became involved in the plot, settings, and characters of Thayer's Quest in a way impossible with other video games.

With advanced design, feature-quality animation, and a comprehensive diagnostic package, Thayer's Quest is the first in a new generation of interactive arcade games.

• CONVERTIBILITY

Thayer's Quest is available in a money-saving conversion kit. This kit allows you to convert your Dragon's Lair or Space Ace machine to Thayer's Quest at a substantial savings. The conversion package will also allow you to economically and quickly install future RDI products in your location.
